Mini MBA of Retail Management

Developing Store Managers to be successful through understanding all aspects of running a profitable store

## Mini MBA of Retail Management

### Target Audience

The Mini MBA of Retail Management from 6one5® Retail Consulting is designed for retail professionals looking to improve their skills in retail management. It has been designed for individuals in head office, area managers, store managers, supervisors, department heads & sales people who want to advance their career.

### Objectives of the Program

The Mini MBA of Retail Management is designed to provide learners with the capability to successfully run a profitable retail store. The programs are outcome focused, interactive and cover the following key management areas: Leading and Coaching Your Team, Managing the Finances of Your Retail Business, Visual Merchandising, and Sales and Service.

Typical retail training programs can have their limitations in that the training is generic rather than linked to your store operations and growth strategy. Our suite of retail management programs allows you to apply the teachings to your store through practical and outcome focused activities
